

Información sobre el proyecto ACES

Project Name:

Acronym / Short Name: ACES

Full Name: Accounting for Circular Economy and Sustainability - Innovative training solutions in higher education facilitating accounting for the circular economy

Logo:

**Co-funded by
the European Union**

Topics:

Environment and fight against climate change | Stimulating innovative learning and teaching practices

Summary:

Circular Economy (CE) regulation is pushing the appearance of circular business models. However, hardly any Higher Education Institutions (HEI) have included circular accounting training in their curriculum. Completion of the ACES project

will enhance the knowledge and skills of business students, teachers, and practitioners about the current and future CE accounting practices and methods by developing teaching materials and innovative digital learning solutions in HEIs across the EU.

The ACES project activities start with a literature review on circular economy (CE) accounting and business interviews on measuring and valuing CE. Based on this research, modular teaching materials with innovative pedagogical elements are developed to fill the gap on circular accounting in current HEI curricula. These modules are piloted and validated for relevance and pedagogical suitability. Active dissemination will ensure wide-reaching use of the results among both HEIs and companies.

The ACES project brings together the latest knowledge and best business practices on financial and managerial accounting for Circular Economy (CE) in the context of the EU's evolving regulatory landscape. The results include three learning modules and an innovative pedagogical teaching guide. The resulting framework of CE accounting is disseminated among business educators and company representatives, increasing understanding about the critical role of accounting to support the transition to CE.

Coordinator: HAAGA-HELIA AMMATTIKORKEAKOULU OY (Finland).

Consortium Partners: STICHTING HOGER BEROEPSONDERWIJS HAAGLANDEN (Netherlands) | EUROPEAN UNIVERSITY CYPRUS (Cyprus). UNIVERSIDAD DE ALCALA (Spain) | IMPACT HUB GMBH (Austria).

Project details:

Total requested budget: 400.000,00 EUR

UAH requested budget: 68.168,00 EUR

Key Action: KA220-HED - Cooperation partnerships in higher education

Action Type: Cooperation among organisations and institutions

Project Reference: 2022-1-FI01-KA220-HED-000089835

Erasmus Project Result: [Project results card](#)
